The accompanying notes are an integral part of these condensed interim consolidated financial statements

PALLADIUM ONE MINING INC.

(Formerly "Nickel One Resources Inc.")

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

1. Nature and continuance of operations

Palladium One Mining Inc. ("Palladium" or the "Company") is a mineral exploration company listed on the TSX Venture Exchange ("TSX-V") under the symbol "PDM". The address of the Company's corporate head office and principal place of business is 550 - 800 West Pender Street, Vancouver, BC, V6C 2V6.

On May 3, 2019, the Company changed its name from Nickel One Resources Inc. to Palladium One Mining Inc. and its stock symbol from NNN to PDM. The Company also consolidated its share capital on a ratio of one (1) new post-consolidated common share for every two (2) old pre-consolidated common shares. All shares and per share references in these condensed interim consolidated financial statements have been retroactively restated accordingly unless noted otherwise.

The business of exploring for minerals involves a high degree of risk and there can be no assurance that current exploration programs will result in profitable mining operations. The recoverability of the carrying value of exploration properties and the Company's continued existence are dependent upon the preservation of its interest in the underlying properties, the discovery of economically recoverable reserves, the achievement of profitable operations, or the ability of the Company to raise alternative financing, if necessary, or alternatively upon the Company's ability to dispose of its interests on an advantageous basis. These material uncertainties may cast significant doubt as to the Company's ability to continue as a going concern.

The Company's ability to continue as a going concern is dependent upon its ability to fund its exploration and evaluation programs. These condensed interim consolidated financial statements do not reflect the adjustments to the carrying value of assets and liabilities and the reported expenses and statement of financial position classification that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of business operations. Such adjustments could be material.

The condensed interim consolidated financial statements were approved by the Board of Directors on November 27, 2020.

In March 2020, the World Health Organization declared coronavirus COVID-19 a global pandemic. This contagious disease outbreak, which has continued to spread, and any related adverse public health developments, has adversely affected workforces, economies, and financial markets globally, potentially leading to an economic downturn. To date, there have been no adverse effects on the Company's business or ability to raise funds.

2. Basis of presentation and statement of compliance

The condensed interim consolidated financial statements have been prepared on a historical cost basis, except for financial instruments classified as financial instruments at fair value through profit and loss or available for sale, which are stated at fair value. All dollar amounts presented are in Canadian dollars unless otherwise specified. In addition, these condensed interim consolidated financial statements have been prepared using the accrual basis of accounting except for cash flow information.

The condensed interim consolidated financial statements of the Company have been prepared in accordance with International Financial Reporting Standards ("IFRS") as issued by the International Accounting Standards Board ("IASB") for interim information, specifically International Accounting Standards ("IAS") 34 – Interim Financial Reporting. In addition, the condensed interim consolidated financial statements have been prepared using interpretations issued by the International Financial Reporting Interpretation Committee ("IFRIC") and the same accounting policies and methods of their application as the most recent annual financial statements of the Company. These condensed interim consolidated financial statements do not include all disclosures normally provided in the annual financial statements and should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2019. In management's opinion, all adjustments necessary for fair presentation have been included in these condensed interim consolidated financial statements. Interim results are not necessarily indicative of the results expected of the year ended December 31, 2020.

PALLADIUM ONE MINING INC.

(Formerly “Nickel One Resources Inc.”)

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

3. Summary of significant accounting policies

The accounting policies in preparation of these condensed interim consolidated financial statements are consistent with those applied and disclosed in the Company’s audited financial statements for the year ended December 31, 2019.

Principles of consolidation

These condensed interim consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries: Tyko Resources Inc. and Nortec Mineral Oy (“Nortec”). All inter-company transactions and balances have been eliminated upon consolidation.

Name of subsidiary	Country of incorporation	Proportion of ownership interest	Principal activity
Tyko Resources Inc.	Canada	100%	Mineral exploration
Nortec Mineral Oy.	Finland	100%	Mineral exploration

Critical accounting estimates and judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss/income in the year of the change, if the change affects that year only, or in the year of the change and future years, if the change affects both.

Information about critical estimates and judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

Critical estimates

Share-based Payment Transactions

The Company measures the cost of options granted for goods and services with reference to the fair value of the equity instruments at the date at which they are granted. Estimating fair value for share-based payment transactions requires determining the most appropriate valuation model, which is dependent on the terms and conditions of the grant.

This estimate also requires determining the most appropriate inputs to the valuation model including the expected life of the share option, volatility and dividend yield and making assumptions about them.

Income taxes

The estimation of income taxes includes evaluating the recoverability of deferred tax assets based on an assessment of the Company’s ability to utilize the underlying future tax deductions against future taxable income prior to expiry of those deductions. Management assesses whether it is probable that some or all of the deferred income tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income, which in turn is dependent upon the successful discovery, extraction, development and commercialization of mineral reserves. To the extent that management’s assessment of the Company’s ability to utilize future tax deductions changes, the Company would be required to recognize more or fewer deferred tax assets, and future income tax provisions or recoveries could be affected.

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

5. Exploration and evaluation expenditures (continued)

LK Project

The Company holds a 100% interest in the Lantinen Koillismaa Platinum Group Element-Copper-Nickel (PGE-Cu-Ni) project ("LK Project") located in North-central Finland. The LK project was acquired on February 28, 2018 as part of the acquisition of Nortec Minerals Oy.

On January 16, 2020, the Company bought back an existing 2% Net Smelter Return ("NSR") royalty in respect of the historic Haukiaho deposit and surrounding properties. The terms of the royalty buyback included a cash payment of \$50,000 and issuance of 375,000 common shares.

KS Project

The Company holds a 100% interest in the Kostonjarvi Platinum Group Element-Copper-Nickel (PGE-Cu-Ni) project ("KS Project") located in North-central Finland adjacent to the LK project. The KS reservation was acquired by staking on April 2, 2020.

Tyko Project

The Company holds a 100% interest in the Tyko project located in Northwestern Ontario.

Disraeli Lake Project

The Company holds a 100% interest in the Disraeli Lake project located near Thunder Bay, Ontario. The project was acquired on February 6, 2020 by making a cash payment of \$5,000 and incurring \$56,000 in exploration expenditures, which was fulfilled by the end of March 2020.

6. Accounts payable and accrued liabilities

Accounts payable and accrued liabilities consist of payables to vendors. The breakdowns of accounts payable and accrued liabilities are as follows:

	September 30, 2020	December 31, 2019
Accounts Payable	\$ 637,810	\$ 204,493
Accrued Liabilities	8,106	16,862
	<u>\$ 645,916</u>	<u>\$ 221,355</u>

(Formerly "Nickel One Resources Inc.")

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

7. Capital stock and reserves

The authorized capital stock of the Company consists of an unlimited number of common shares with no par value.

Transactions for the nine months ended September 30, 2020 were as follows:

Private placement

On May 20, 2020, the Company completed the first tranche of its non-brokered private placement of flow through units for gross proceeds of \$1,057,950. The Company issued 2,700,000 charity flow-through units at a price of \$0.13 per unit and 7,855,000 flow-through units at a price of \$0.09 per unit. Each unit is comprised of one common share, one-half of one Common Share purchase warrant exercisable at \$0.13 for 12 months, then \$0.22 for the following 12 months. The Company incurred finders' fees totaling \$28,975 and issued 67,500 finders' warrants with a fair value of \$3,894, exercisable at \$0.13 for 12 months, then \$0.22 for the following 12 months.

On May 26, 2020, the Company completed the second tranche of its non-brokered private placement of charity flow through units, for gross proceeds of \$76,440. Each unit is comprised of one common share, one-half of one Common Share purchase warrant exercisable at \$0.13 for 12 months, then \$0.22 for the following 12 months.

Shares for Net Smelter Royalty buyback

On January 16, 2020, the Company bought back an existing 2% Net Smelter Return ("NSR") royalty in respect of the historic Haukiahio deposit and surrounding properties. The terms of the royalty buyback included a cash payment of \$50,000 and issuance of 375,000 common shares, with a fair value of \$73,125.

Warrants Exercised

During the nine months ended September 30, 2020, 4,751,250 shares were issued upon exercise of warrants for proceeds of \$570,150.

Options Exercised

During the nine months ended September 30, 2020, 75,000 shares were issued upon option exercise for proceeds of \$6,000.

Transactions for the nine months ended September 30, 2019 were as follows:

Private placement

On May 9, 2019, the Company completed a non-brokered private placement and issued 16,912,000 units at a price of \$0.08 per unit for gross proceeds \$1,352,960. Each unit consists of one common share and one common share purchase warrant. Each whole common share purchase warrant is exercisable into one common share for a period of two years from closing at a price of \$0.12 per share. The Company incurred a total of \$19,404 in share issuance costs related to the private placement. The warrants were allocated a value of \$nil using the residual value allocation method.

Shares for debt

On May 13, 2019, the Company issued 925,072 common shares at a price of \$0.11 per share to settle \$101,758 in accounts payable.

PALLADIUM ONE MINING INC.

(Formerly "Nickel One Resources Inc.")

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

7. Capital stock and reserves (continued)**Warrants**

The Company uses the residual approach when allocating the fair value of the share purchase warrants issued in conjunction with the offering of units through a private placement. The Company determines the fair value of the common share and the residual value is allocated to the share purchase warrant for unit offerings that contain a common share and a share purchase warrant.

The number and weighted average exercise prices of warrants are as follows:

	Number of warrants	Weighted average exercise price
Outstanding warrants, December 31, 2018	4,655,158	\$0.20
Granted	66,695,499	\$0.12
Expired	(1,700,158)	\$0.16
Outstanding warrants, December 31, 2019	69,650,499	\$0.17
Granted	5,639,000	\$0.13
Exercised	(4,751,251)	\$0.12
Expired	(2,955,000)	\$0.22
Outstanding warrants, September 30, 2020	67,583,248	\$0.17

As at September 30, 2020, warrants enabling the holders to acquire common shares are as follows:

Expiry date (mm/dd/yyyy)	Number of warrants	Weighted average remaining life in years	Weighted average exercise price
05/09/2021	12,160,749	0.61	\$0.12
10/18/2021	500,000	1.05	\$0.12
12/2/2021	31,551,500	1.17	\$0.10 ¹
12/2/2021	1,334,500	1.17	\$0.10 ¹
12/2/2020	15,775,749	0.17	\$0.15
12/2/2020	621,750	0.17	\$0.15
05/20/2022	5,571,500	1.64	\$0.13 ²
05/20/2022	67,500	1.64	\$0.13 ²
	67,583,248	0.87	\$0.12

¹ Exercise price \$0.20 per Warrant in the second year from issuance.

² Exercise price \$0.22 per Warrant in the second year from issuance.

During the period ended September 30, 2020 and December 31, 2019, finders warrants were issued in connection with the May 2020 and December 2019 private placement, wherein a fair value of \$3,894, and \$55,465, respectively, was calculated using the Black Scholes pricing model, based on the following assumptions:

	2020	2019
Forfeiture rate	0.00%	0.00%
Estimated risk-free rate	0.30%	1.63%
Expected volatility	191.41%	107.97%
Estimated annual dividend yield	0.00%	0.00%
Expected life of warrants	1.64 years	1.68 years

PALLADIUM ONE MINING INC.

(Formerly “Nickel One Resources Inc.”)

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

7. Capital stock and reserves (continued)**Stock options**

The Company has established a rolling stock option plan (“Option Plan”) enabling the directors to grant options to employees, officers, directors, and consultants of the Company. From time to time, shares may be reserved by the Board, in its discretion, for options under the Option Plan, provided that the total number of shares reserved for issuance by the Board shall not exceed 10% of the issued and outstanding listed shares (on a non-diluted basis) as at the date of grant. Options are non-assignable and may be granted for a term not exceeding that permitted by the Exchange, currently ten years. All stock options issued are subject to vesting terms. All stock options granted during the fiscal year 2019 vested immediately.

There were no stock options issued during the period ended September 30, 2020. Share-based payments relating to options vested during the nine months ended September 30, 2019 using the Black-Scholes option pricing model was \$175,687, which was recorded as reserves on the statements of financial position and as stock option issuances expense on the statement of operations and comprehensive loss. The associated stock option issuances expense for the options granted was calculated based on the following assumptions:

	2020	2019
Forfeiture rate	N/A	0.00%
Estimated risk-free rate	N/A	1.40%
Expected volatility	N/A	71.92%
Estimated annual dividend yield	N/A	0.00%
Expected life of options	N/A	5 years

The number and weighted average exercise prices of the stock options are as follows:

	Number of options	Weighted average exercise price
Outstanding options, December 31, 2018	687,500	\$0.30
Granted	8,625,000	\$0.12
Forfeited	(450,000)	\$(0.30)
Outstanding options, December 31, 2019	8,862,500	\$0.13
Exercised	(75,000)	\$0.08
Forfeited	(50,000)	\$0.08
Outstanding options, September 30, 2020	8,737,500	\$0.13

PALLADIUM ONE MINING INC.

(Formerly "Nickel One Resources Inc.")

(An Exploration Stage Company)

Notes to the Condensed Interim Consolidated Financial Statements for the Nine Months Ended September 30, 2020 and 2019

(Expressed in Canadian Dollars)

8. Nature and extent of risks arising from financial instruments

The Company's financial instruments consist of cash, sales tax receivable, and accounts payable and accrued liabilities. The fair values of financial assets and financial liabilities approximate their carrying amounts due to the short-term maturity of the instruments.

The following table summarizes the carrying values of the Company's financial instruments:

	September 30, 2020	December 31, 2019
Cash	\$ 2,741,901	\$ 3,780,176
Accounts receivable	176,967	49,582
Accounts payable and accrued liabilities	645,916	221,355

The Company classifies its fair value measurements in accordance with an established hierarchy that prioritizes the inputs in valuation techniques used to measure fair value as follows:

Level 1 – Unadjusted quoted prices in active markets for identical assets or liabilities

Level 2 – Inputs other than quoted prices that are observable for the asset or liability either directly or indirectly, and

Level 3 – Inputs that are not based on observable market data

The following table sets for the Company's financial assets measured at fair value on a recurring basis by level within the fair value hierarchy:

	Level 1	Level 2	Level 3	Total
Cash	\$ 2,741,901	\$ -	\$ -	\$ 2,741,901

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Financial instruments that potentially subject the Company to credit risk consist of cash and receivables. The Company's cash is held through a large Canadian financial institution. At September 30, 2020, the Company's receivables consist of sales tax receivable due from the Government of Canada and Finland of \$176,967 (December 31, 2019 - \$49,582).

Liquidity Risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company manages liquidity risk through the management of its capital structure, as outlined in Note 9 of these condensed interim consolidated financial statements. As at September 30, 2020, the Company had a cash balance of \$2,741,901 (December 31, 2019 - \$3,780,176) to settle current liabilities of \$772,910 (December 31, 2019 - \$226,753). However, the Company has an accumulated deficit of \$11,537,357 (December 31, 2019 - \$8,462,594). The continuation of the Company depends upon the support of its equity investors, which cannot be assured.

8. Nature and extent of risks arising from financial instruments (continued)

Other Market Price Risk

The Company is exposed to price risk with respect to commodity and equity prices. Equity price risk is defined as the potential adverse impact on the Company's earnings due to movements in individual equity prices or general movements in the level of the stock market. Commodity price risk is defined as the potential adverse impact on profit or loss and economic value due to commodity price movements and volatilities. The Company closely monitors commodity prices of palladium, platinum and nickel, individual equity movements, and the stock market to determine the appropriate course of action to be taken by the Company.

Currency risk

The Company has transactions internationally and is exposed to foreign exchange risk from the Euro currency. Foreign exchange risk arises from financing and purchase transactions that are denominated in currency other than the Canadian Dollar, which is the functional currency of the Company. As at September 30, 2020, the Company held the Canadian dollar equivalent of \$198,410 (December 31, 2019 - \$4,329) in cash, and \$9,722 in accounts payable and accrued liabilities (December 31, 2019 - \$74,133) both of which were denominated in Euros. A 10% increase or decrease in the Euro would increase or decrease net loss by \$18,900 (December 31, 2019 - \$6,900).

Interest risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Financial assets and liabilities with variable interest rates expose the Company to interest rate risk with respect to its cash flow. As at September 30, 2020, the Company is not exposed to significant interest rate risk.

9. Capital management

The Company manages its capital structure and makes adjustments to it, based on the funds available to the Company, in order to support the exploration and development of mineral properties. The board of directors does not establish quantitative return on capital criteria for management, but rather relies on the expertise of the Company's management to sustain future development of the business. The Company defines capital to include all components of equity. In order to carry out the planned exploration and pay for administrative costs, the Company will spend its existing working capital and raise additional amounts as needed. There were no changes in the Company's approach to capital management during the nine months ended September 30, 2020. The Company is not subject to externally imposed capital requirements.

The Company sets the amount of capital in proportion to risk. The Company manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may issue common shares through private placements.

10. Related party transactions

a) Key management compensation

Key management consists of the Company’s directors and officers. In addition to management and consulting fees paid to these individuals, or companies controlled by these individuals, the Company provides stock options.

Remuneration of key management includes the following:

	Nine months ended September 30, 2020		Nine months ended September 30, 2019	
Salaries, consulting and management fees	\$	180,700	\$	122,760
Exploration and evaluation		248,116		-
Share based compensation		-		134,736
Total remuneration	\$	428,816	\$	257,496

b) Related party transactions and balances not disclosed elsewhere in these condensed interim consolidated financial statements are as follows:

The balance payable to related parties as at September 30, 2020 was \$31,456 (December 31, 2019 - \$29,963) and is included in accounts payable and accrued liabilities. These payables are unsecured, non-interest bearing and are expected to be repaid under normal trade terms.

During the period ended September 30, 2019, the Company received the principal balance of \$4,175 and agreed to forgo the accrued interest of \$14,160 on the loan receivable (Note 4).

During the period ended September 30, 2019, the Company settled debt with various officers and directors resulting in a gain on settlement of debt of \$102,486. This amount has been netted against other vendors’ gains or losses on the settlement of debt.

11. Segmented information

The Company has one reportable operating segment being the acquisition, exploration and evaluation of mineral properties. For the periods presented, all of the Company’s long-term assets are located in Canada and Finland.

12. Subsequent event

Subsequent to period ended September 30, 2020, 30,395,502 warrants were exercised for gross proceeds of \$3,506,513.
